JR. APP DEVELOPER / PROGRAMMER

A fresh graduate who has a hands-on experience as a front-end developer intern. My objective is to utilize my passion in creating a user-friendly website and application that can contribute to the needs of a business. I committed to contribute my technical skills while expanding my knowledge in my chosen field.

TECHNICAL SKILLS

- HTML and CSS
- JavaScript
- PHP
- Java
- jQuery
- Bootstrap
- Tailwind CSS
- ReactJS
- MySQL
- Git

SOFT SKILLS

- Leadership
- Communication
- Adaptability
- Critical Thinking
- Teamwork
- Time Management

WORK EXPERIENCE

Bataan Peninsula State University - College Instructor Part-Time Contract (One Semester - Online Class)

September 2023 - Present

As a part-time college instructor, I am able to share my expertise and knowledge with students on a flexible basis. My responsibilities include instructing and guiding students through their academic courses and providing valuable insights. This position allows me to balance my teaching duties with other obligations, benefiting both my professional development and the students' education.

Accomplishments:

- Students were taught the fundamentals of Java computer programming.
- If the lesson can be applied to their systems using PHP programming, I can help the students with their Capstone Project.

Kloudtech Corp. - Front-End Web Developer On-the-Job Training and Internship

March 2023 - September 2023

Exhibited exceptional work by performing various web development-related tasks. I work as a Front-End Developer as well as a UI/UX Designer for their Business Website and Weather Monitoring System. My OJT during college is the first 324 hours, and I then continue to work as an intern.

Accomplishments:

- Created different mockup designs of a business website and web application.
- Implemented the chosen structure of the website in code and backed up the other web structures.
- Managed the website's search engine optimization (SEO), as well as its mobile and tablet responsiveness.
- Consulted and suggested improvements to the website and web app's features.
- Developed a landing page and admin pages with analytics and charts for the website and web app.

Assisting the technical team and various offices throughout the municipality with technical issues such as servers, internet, and hardware. Despite the limited time I had during my work immersion, I was able to complete my responsibilities.

Accomplishments:

- Encoded and maintained various data in Excel.
 - Troubleshoot different offices with LAN Servers.
 - Modified the operating systems of each department's devices.
 - Assembled and disassembled PC in the Municipality Hall.
-
